GitHub: github.com/satyam932408

OBJECTIVE

Aspiring **Software Developer** with hands-on experience in **full-stack web development** using **React.js**, **Node.js**, and **Express.js**. Strong foundation in **Data Structures and Algorithms**, **Object-Oriented Programming** and **database management systems**. Focused on building **scalable, secure, and enterprise-ready applications** through continuous learning, problem-solving, and collaborative development.

SKILLS

Programming Languages: C++, JavaScript
Frontend Technologies: HTML5, CSS3, React.js, Next.js , jsPDF, Recharts
Backend Technologies: Node.js, Express.js, WebSocket, MJML, Axios
Databases: MySQL, AWS DynamoDB
Cloud & DevOps (AWS): S3, EC2, Lambda, CloudFront, AWS CLI
Tools & Platforms: Visual Studio Code, Git, GitHub, Vercel, Claude Code
Behavioral Skills: Team Collaboration, Problem Solving, Communication, Adaptability

EDUCATION

Shree L.R. Tiwari College of Engineering — **2022 – 2026**
Bachelor of Engineering in Information Technology — Mumbai, Maharashtra

Durga Devi Saraf College of Science — **2020 – 2022**
Higher Secondary Education — Mumbai, Maharashtra

Queen Mary High School — **2019 – 2020**
Secondary Education — Mumbai, Maharashtra

EXPERIENCE

Full Stack Developer | Icanio Technologies — **07/2026 – Present**

- Working as a **Full Stack Developer**, contributing to the design and development of **enterprise-level full-stack applications**
- Received structured training and hands-on exposure to **Next.js**, **Redux**, **jsPDF**, **WebSocket**, **MJML**, **Axios**, **Claude Code**, and **Recharts** for building modern, data-driven interfaces
- Built and maintained backend services using **Node.js**, and gained hands-on experience with **AWS cloud services** including **S3**, **EC2**, **DynamoDB**, **Lambda**, **CloudFront**, and **AWS CLI**

Robokart Intern | Gujarat — **12/2024 – 12/2024**

- Conducted technical training sessions for **400+ students**
- Gained hands-on experience with **Arduino Uno**, **sensors**, and real-time hardware integration
- Developed and debugged **C/C++ programs** for embedded systems using the **Arduino IDE**

PROJECTS

Algo Tracker | *React.js, JavaScript, Vercel*

- Developed a responsive DSA question tracking application using **React.js** with reusable components
- Implemented features to add, update, delete, and filter questions using **React Hooks** (**useState**, **useEffect**)
- Deployed the application on **Vercel** with an optimized production build

Serenity Yoga & Natural Healthcare Website | *Next.js, TypeScript, Sass, Responsive Design*

- Developed a responsive healthcare website for a client using **Next.js** with reusable and modular components
- Built multiple sections including Home, Programs, Contact, and Consultation pages with responsive UI and optimized user experience

EatFresh Food Delivery Platform | *MongoDB, JavaScript, Node.js, Express.js*

- Built a web application for ordering food and managing user orders
- Created **RESTful APIs** to add, update, delete, and track orders
- Used **Node.js**, **Express.js**, and **MongoDB** to develop the backend

CERTIFICATIONS & COURSES

APNA COLLEGE SIGMA 8.0 – Web Development & Data Structures and Algorithms

ACHIEVEMENTS

- Solved **250+ Data Structures and Algorithms problems** across platforms including **LeetCode**
- Shortlisted for TCS Prime through a competitive national-level selection process.
- Trained and mentored **400+ students** through technical workshops under an innovation club initiative

OTHER LANGUAGES AND INTERESTS

Languages Known: English, Hindi
Interests & Hobbies: Competitive Programming, Outdoor Games, Podcasts, Fitness
